[Chapters and Stage of Completeness for Psalm](#)

Updated November 7, 2021

My previous set of links ([HTML](#)) ([PDF](#)) ([WPD](#)) was hard to follow; this is a redesigned document for easier access to the various psalms. There may be some kinks in this new document. Worst case scenario, check www.kukis.org/Psalms/ for the folder where all of my work on the psalms may be accessed. Except for Psalms 1, 7, 12, 22, 69, 91 & 109 I have not done any new work in the psalms for over 10 years.

I am currently working on Psalms 1, 22, 69, 109 and posting updates as necessary.

The completed the exegesis of Psalms runs 5585 pages (so far; I have done about 40% of the chapters). Each chapter is a separate document, so the links below will take you to each chapter individually. The idea is, this should be everything that you need to know about each chapter of this book, including the morphology of the Hebrew. Now, since some of those who read this are not interested in the Hebrew, or do not grasp the significance for including it, I have placed the Hebrew in grey tables which can be easily skipped over. If you question a translation, you may always go back to the tables to see why it is so translated. My intention was to provide one place where you could go to get every bit of information that you want on every verse from the book of the Psalms.

The exegesis of these books will not put before you a bunch of brand new doctrines which are different from those already delivered by orthodox Christianity; that is, a study of this book is not going to upend your doctrinal foundation, or get you interested in joining some cult of some sort; these questions have doctrinal answers and fit in very well with the essential doctrines that we have learned and have believed in (see the [Doctrinal Statement](#)).

As an aside, even though I have attended Berachah Church for over 40 years, these are *not* my notes re-worked from R. B. Thieme, Jr.'s excellent study on some of the psalms. I refer back to my old notes for some of the psalms when I am in the completion state to make certain that I did not leave anything out; however, the bulk of this study is original, with view toward contemporary events. There are a great many things in these chapters that Bob did not cover.

There are some problems with the Hebrew characters in some of these documents. If memory serves, any document completed prior to WordPerfect X4 looks correct in the PDF files, but incorrect in the HTML files. Any document created or saved after WP X4 displays backwards in the PDF files but as it

should in the HTML files. I have only recently (2020) begun to work on some of the psalms; and they will have the updated Hebrew characters.

The problems noted above for Psalm are also true of the Psalm files. At this point, I have not written the introduction for Psalm but all of the chapters for Psalm have been completed.

A possible problem with the following pdf files is, they are quite large and they may not display on computers with limited memory. If that is the case, then you should be able to right-click the link, choose *save as*, and put the file on your hard drive and open it there using [Adobe Acrobat Reader](#). That will give you a complete view of the graphics and the Hebrew characters.

For most chapters, the original wpd (WordPerfect document) is also available online. Just go to <http://kukis.org/Psalm/>, right click, and choose save as. These documents will open in WordPerfect and sometimes in Word (although that is a dicey proposition). Each document (chapter) is typically around 100–250 pages.

Now and again, I have seen that I have made some mistakes in spelling as well as in the morphology (I took the information from Owen, but changed it whenever there was a mistake in his work). If you discover mistakes, then I would want to know what they are so that I could change them and update the documents. I enjoy studying the Word of God, but I so hate to proofread.

As is nearly always the case, both the list of **Doctrinal Terms** ([HTML](#)) ([PDF](#)) ([WPD](#)) and the list of **Old Testament topics** which are covered ([HTML](#)) ([PDF](#)) ([WPD](#)) are both updated and posted with each new chapter of Psalm.

Chapters and Stage of Completeness for Psalms

When it comes to *completeness*, I did a lot less when putting together these chapters. I had fewer divisions of translations; I looked at maybe 30 translations rather than 90+; and I did this work in WordPerfect before the properly wrote Hebrew right to left. If I save the document in WP12 or lower, then the Hebrew will look like it is supposed to in the WPD and the PDF version. However, if I save the documents in a later version of WP, then the Hebrew will be messtup in the HTML, the PDF and the WPD.

The more recent the commentary, the more translations and more commentators who were drawn from. Back in the 1990's, there may not even be the Hebrew exegesis.
